[Portfolio - https://msbello.pages.dev/](https://msbello.pages.dev/)

A Chemistry student transitioning to software development, I am a full-stack developer always eager to build something new and functional that tackles real-world problems. Driven by curiosity and a commitment to continuous learning, I enjoy working independently but also thrive in collaborative environments that challenge me to grow. With a strong work ethic and passion for the **open-source** and **Linux** communities, I leverage my expertise in **React.js**, **responsive design**, **web and mobile application development**, along with **Git proficiency and version control systems**, to design, implement, and deliver effective solutions that prioritize efficiency and innovation.

## Technical Skills

**Frameworks & Libraries:** React.js, Next.js, Astro, React-native

**Frontend Development:** React.js, JavaScript, HTML5, CSS3, Responsive Design, UI/UX Implementation

**Backend Development:** Node.js, PostgreSQL, Firebase, Supabase, PocketBase, Appwrite, RESTful APIs

**AI & Integrations:** OpenAI, Google Gemini, Anthropic and DeepSeek API's, Google cloud console and Payment Checkouts

**Tools & Infrastructure:** Git, GitHub, Linux Systems Administration, Version Control

**Core Competencies:** Full-stack architecture, Technical leadership, System security, Team collaboration

## Professional Experience

November 2025 - PRESENT

KUGAL JOBS, Hybrid - *Technical Co-founder*

- Designed and built the entire platform with accessibility and simplistic usage in mind.

- Constantly monitoring, managing and improving the platform with an AGILE approach and power of GIT.

**September 2025 - PRESENT**

HACKSAT TECH LTD, Hybrid - *Chief Technology Officer*

- Manage IT resources and ensure system reliability, performance, and security standards.
- Mentor team members on technical concepts, development best practices, and emerging technologies.
- In charge of technical and practical course creation and trainings for students taking Networking and cyber security basics, software development and A.I mastery courses.

**April 2025 - September 2025 (6 months)**

HACKSAT TECH LTD, Hybrid - *Systems Security Officer*

- Maintained and performed vulnerability checks on the company's assets.
- Developed Introduction to cybersecurity course and facilitated classes to beginners.
- Provided actionable insights on maintaining security standards and threat mitigation for my colleagues.

**SEPTEMBER 2024 - PRESENT**

eVault, Remote - *Full-stack Web Developer*

- Built a fintech web-app that allows transactions, subscriptions and more.
- Contributed to projects including subscription services for utilities, airtime and data subscriptions.
- Focused on optimizing user experience, performance, and accessibility.

**MARCH 2019 - OCTOBER 2021 (2 years 8 months)**

Federal College of Education, Yola - *IT Support Technician*

- Assisted in IT infrastructure maintenance under the supervision of the IT maintenance officer.
- Gained practical experience in troubleshooting and repairing computer systems, networking, and server management.
- Helped set up networking, wiring, and exam software installation for the CBT center, supporting various national, state, and college tests.
- Participated in monitoring and supervising CBT exam sessions of over 800 students to ensure smooth operations and swift addressing of any technical issues.

## Education

APRIL 2023 - PRESENT

Modibbo Adama University, Yola, Adamawa State  
BSc. Chemistry

AUGUST 2015 - AUGUST 2018

Federal Government College, Kiyawa, Jigawa State  
High School/Secondary Certificate

## Key projects

- [ResumeForge](https://resumeforge.pages.dev/) - <https://resumeforge.pages.dev/>

*A modern, React-based resume builder application that allows users to create professional, ATS-friendly resumes with real-time PDF preview and multiple template options.. (Firebase, OAuth, PDF.js, node.js)*

- [Kugal jobs](https://kugaljobs.com/) - <https://kugaljobs.com/>

*A job seeking and posting platform for local talents, designed to bridge the gap and solve the hassle of looking for employers and applying for a job. (react, tailwindCSS, supbase, Resend)*

- [Jalolink](https://jalolink.com) - <https://jalolink.com>

*A food, groceries and everyday student items purchase and logistics web app whose objective is to give students easy access to products specifically within a campus, with proper inventory, orders and stock management admin panel. (Appwrite, node.js, meta OG-graphs)*

## Additional Information

Passionate about the open-source and Linux communities.

Committed to continuous learning and personal growth.

A team player who thrives in collaborative, purpose-driven environments.
